Farmville is a
friendly
community with a
BRIGHT FUTURE.

Meet KATHY GAGEN, Water Treatment Plant Supervisor

How long have you worked for the Town? What positions have you held?

I have worked for the Town for 24 years. I started at the Water Treatment Plant in operations. I have since become the Water Treatment Plant Superintendent. I began this endeavor in March of 1999.

What do you do in your role for the Town?

I am responsible for the operations and conformance with established treatment goals and water quality standards. I provide technical support through laboratory testing and data analysis. As well as, communicate and coordinate plant operations with plant staff to produce safe clean water that meets federal and state regulations.

What do you love most about Farmville?

I love the small town atmosphere and it's scenic beauty. Farmville is a friendly community with a bright future.

What is your favorite quote?

"He who is cruel to animals becomes hard in his dealings with men. We can judge the heart of a man by his treatment of animals."
-Immanuel Kant

If you could witness any historical event (past, present, or future), what would it be?

I would love to see the new Space X rocket launch from the Kennedy Space Center. I have always been very fascinated by the space program.

THE SCOOP
